

FRAGRANCE OILS

Candle Deli guide to candle making

FRAGRANCE IN SOY WAX

- Soy wax is easy to fragrance
- Paraffin wax and IW3F need specially formulated fragrances

What does this mean? Most fragrance oils will blend with soy wax. You can use any cosmetic grade fragrance oil in soy wax.

All of Candle Deli's fragrance oils work in soy wax.

Tip

Soy wax has a distinct smell. Ensure that the fragrance you choose marries well with this smell.

Candle Deli's fragrances for soy are designed to smell good in soy wax.

DOSAGE RATES

General guideline

Use 3 - 6% fragrance oil. This is roughly 1 - 2 tablespoons of fragrance oil per 1kg wax.

Can you use more in Candle Deli's waxes? Yes, you can. NB: this will push up the cost of your candle.

Is temperature important? Not nearly as important as the internet says. Add Candle Deli fragrance oils at any temperature.

Tip

Use Candle Deli's digital spoon scale
to measure fragrance oils
accurately.

FRAGRANCE IN IW3F AND PARAFFIN WAX

- Use 3- 6%
- Add at any temperature

Melt the wax in a double boiler on an electric stove, or use our 9L [electric wax melter](#).

Remove the melted wax from the stove. Measure out your favourite fragrance oil and add this to the melted wax.

Gently stir until the fragrance oil has been completely incorporated into the melted wax.

FRAGRANCE IN SOAP

- Use glycerine soap
- Add 2% fragrance oil
- Add the fragrance oil once the soap has melted

CARING FOR YOUR FRAGRANCE OILS

Storage and safety

Keep fragrance oils in a tightly closed, UV resistant container.

Keep the fragrances in a cool, dark place at an ambient temperature of 20C.

Avoid flames, lighters and any other sources of ignition.

APPLICATIONS

Use our fragrance oils in:

- Candles
- Wax Melts
- Soaps
- Body scrubs
- Lotions

All Candle Deli's fragrance oils are skin safe at correct dosage rate.

Tip

Use 0.5% fragrance oil in cosmetic products

PREMIUM RANGE

Each fragrance oil in our premium range is an olfactory portrait of an iconic South African landscape.

We launched this range with a woody floral fragrance oil which reminds us of the steep mountain sides and vast wild space of the Cederberg.

Look out for Kalahari fragrance oil, which smells like a hot, dry, faintly spicy breath of desert air.

Bokaap fragrance oil will transport you to the colourful, vibrant streets of this historic Cape Town suburb nested at the foot of Lion's Head.

The clean, aquatic notes in St. Lucia fragrance oil work surprisingly well in candle wax. This fragrance oil tries to capture the essence of the vast St Lucia estuary, home to crocodiles, hippos and teeming with bird life.
