

IFRA Compliance Certificate for Fragrance Compounds

We certify that the fragrance compound below:

NEW OUD

Is compliant with the latest Amendment of International Fragrance Association (IFRA), **IFRA 51st, published in June 30th 2023**, provided it is used at the maximum concentration level indicated.

IFRA compliance above is assessed according to IFRA Standards based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM).

Please be aware that information provided in this document takes into account only raw materials or their sub-ingredients explicitly regulated by IFRA.

IFRA Category - Product Type	IFRA Category	Max dosage (%) (w/w)
Products applied to face and body, primarily leave-on	5A	10,9999
	5B	2,800
	5C	3,800
Products with body and hand exposure, primarily rinse-off	9	12,000
Household aerosol/spray products	10B	33,0000
Products not intended for direct skin contact, minimal or insignificant transfer to skin	12	100

We draw your attention to the fact that this certificate is a standard template of information exchange between supplier and customer. It concerns the compliance with IFRA standards

at the latest amendment of the fragrance/flavour concentrate only and not the safety assessment of the finished product.

In no case is this document to be seen as a replacement of your obligations and responsibilities as the party manufacturing, launching or distributing the product for sale in the market. We disclaim all responsibility in case of possible interactions between the fragrance compound and the other ingredients used in the finished product, which cannot be taken into account by this evaluation.

The information contained herein is, to the best of our knowledge, true and accurate at the time it is given.
